BEAT THE RECORD IN BICYCLE GRIND

Within Twenty-Four Hours of Finish, Lead by Six Miles.

NEW YORK, December 11.—Within twenty-four hours of the finish, the three leading teams in the six-day bicycle race at Madison Square Garden were pedaling steadily along tonight more than six miles ahead of the best mark previously set in these annual contests of endurance and speed, and there was every indication that the close of the race to-morrow night would find all previous records sellipsed.

aight would find all previous records sclipsed.

Doggedly keeping up the grind, five sther teams were closely following.

Best placed of all the trailers, Walthour and Root, who are running but a lap behind the leaders, tried all through the early morning hours and twice during the afternoon to improve their position. Each time they failed. One of their sprints resulted in a bad spill, Root, Galvin, Demara and Yanoni failing in a heap on the track. Galvin was the only one who was unable to resume. He was carried to his headquarters, but after vigorous treatment for twenty minutes was back in the arena ready to relieve his partner, Wiley.

Some of the best sprinting to-day was by Anderson, of the Danish-Italian team. He frequently led the bunch in fast brushes, but falled to gain any material advantage.

FOOTBALL GAME TO-DAY

Broad Street Park will be the scene of a post-senson game of football this afternoon, between Manchester and the First Regiment, of this city. These teams will battle for the third place in the Inter-City League.

By comparison of the work done by the teams in the league, first place goes to the Migers by a good margin, as they have a clean record back of them. The Howitzers come next, with only three defeats against them, and one of the Sunday school board and spoke these by Randulh-Macon College. Third place is practically a toss-up hetween the two teams who play this afternoon.

The financial condition is better than last year, and the debt on the buildings has been reduced. Dr. Bomar read the report of the committee appointed to investigate the condition of the orphanage. He paid a high compliment to the management of the institution, commenting especially upon the neatness of the grounds, the beauty of the situation and the excellent sanitary condition of the buildings. Mr. M. L. Kesler, manager of the orphanage, made a special plea for "Charity and Children," the organ of the orphanage, that now has a circulation of 12,500.
